

INSTRUCTIONS FOR USE OF CONSTRUCTION SPECIFICATION

WASTE TRANSFER, CODE 634

1. Applicability

This specification covers the construction of structures, pipes or conduits to convey wastes or waste byproducts from the agricultural production site to storage/treatment or application.

2. Items to be included in the "ITEMS OF WORK AND CONSTRUCTION DETAILS" or on the Construction Drawings.

- a. Overall plan view of the waste transfer system.
- b. Work limits.
- c. Ingress and egress routes.
- d. Detail location of structure(s).
- e. Cross sections of the proposed structures and components with critical elevations. See documentation requirements for the various components.
- f. Type, quality, and quantity of all materials used.
- g. Excavation and earthfill requirements.
- h. Locations of utilities and notification requirements.
- i. Pollution control.
- j. Vegetative requirements.
